INDEPENDENT AUDITORS' REPORT

Board of Directors Post Oak Savannah Groundwater Conservation District Milano, Texas

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of Post Oak Savannah Groundwater Conservation District (the District) as of and for the year ended December 31, 2016, and the related notes to the financial statements, which comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express our opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the District as of December 31, 2016, and the respective changes in net position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 3 - 5), and budgetary comparison information (page 23), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

In accordance with compliance to the GASB 68 reporting of defined benefit pension plans, (Note 6, C Retirement Plan beginning on page 15), we have also included required schedules on pages 24-25

Other Information

In accordance with *Government Auditing Standards*, we have also issued our report dated April 10, 2017 on our consideration of Post Oak Savannah Groundwater Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Prior Period Financial Statements

The audit of the financial statements of Post Oak Savannah Groundwater Conservation District, as of December 31, 2015, was performed by other auditors whose report, dated May 5, 2016, expressed an unmodified opinion on those statements.

POST OAK SAVANNAH GROUNDWATER CONSERVATION DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED DECEMBER 31, 2016 and 2015

This section of the Post Oak Savannah Groundwater Conservation District ("District") annual financial report presents management's discussion and analysis of the District's financial performance during the fiscal years ended on December 31, 2016 and 2015 (restated). Please read it in conjunction with the District's basic financial statements and related notes.

FINANCIAL HIGHLIGHTS

- ** The District's total net position was \$ 3,342,158.
- ** Operating cash had a deficit balance of \$ (10,715)
- ** Other Cash and investments had a net increase of \$ 70,843.

** Deferred Outflows of Resources increased by \$ 22,631

** Liabilities had a net decrease of \$ (61,338)

** Deferred Inflows of Resources increased \$ 29,078.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual financial report consists of two parts: Management's Discussion and Analysis (this section) and the basic financial statements with related notes and required supplemental information. The district is a governmental entity and follows the accrual basis of accounting for a single purpose governmental entity. The District is not funded by property tax levies.

A. Fund financial statements:

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund of the District is classified as a proprietary fund.

B. Proprietary funds:

The District maintains one type of proprietary fund; an enterprise fund, considered to be its major fund, used to report business-type activities. The District uses this enterprise fund to account for its water transport, program services, and permit fees in the Proprietary Fund financial statements.

C. Notes to the financial statements:

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the proprietary fund financial statements.

POST OAK SAVANNAH GROUNDWATER CONSERVATION DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED DECEMBER 31, 2016 and 2015

FINANCIAL ANALYSIS OF THE DISTRICT

Net Position - Proprietary Fund

	Enterprise Fund <u>2016</u>	Enterprise Fund <u>2015</u>	
Current Assets	\$ 3,021,316	\$ 2,954,352	
Capital Assets (net)	493,037	248,933	*
Other Non-current Assets	30,271	43,220	
Deferred Outflows of resources	27,511	4,880	
Total Assets and Deferred Outflows of			
Resources	\$ 3,572,135	\$ 3,251,385	*
Deferred Inflows of Resources Liabilities Net Position	\$ 190,518 39,459	\$ 161,440 100,797	
Investment in Capital Assets	493,037	248,933	
Unrestricted fund balance	2,849,121	2,740,215	
Total Net Position	3,342,158	2,989,148	*
Total Deferred Inflows of Resources, Liabilities, and Net Position	\$ 3,572,135	\$ 3,251,385	*
	φ 3,372,135	φ 3,231,305	

The balance of unrestricted net position, (85%) of the total net position, may be used to meet the District's ongoing obligations to the respective entities within the District boundaries. At the end of the 2016 fiscal year, the District reports a favorable balance in the two categories of net position. Net position increased substantially due primarily to a decrease in distributions to grant recipients.

Change in Net Position - Proprietary Fund

	Enterprise Fund <u>2016</u>	Enterprise Fund <u>2015</u>	
Operating Revenues Charges for programs, permits, and fees Non-operating Revenues	\$ 1,807,814	\$ 1,802,104

* (Restated from previous audit, see Note 8)

POST OAK SAVANNAH GROUNDWATER CONSERVATION DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED DECEMBER 31, 2016 and 2015

CAPITAL ASSETS AND DEBT

The in 2003 district purchased an office building in Milano, TX for cash. Then in 2015, the District sold the building to build a new one and the District still has no outstanding liens on any property. See Note 3 for more details regarding capital assets.

- ** Acquisition of Capital assets had a net increase of \$ 241,263
- ** Accumulated depreciation had a net decrease of \$ 2,841
- ** Net change in capital assets is \$ 244,104

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District's budgeted expenditures for the fiscal year of 2017 are expected to be \$3,029,016 to be funded by the collections of relevant fees assessed by the district for the production and transport of water within the District's boundaries.

FUTURE EVENTS

In 2006, the District started its conservation and assistance grant program. At December 31, 2016, the total balance to fund was \$ 1,198,067 (net of contractual forfeitures). (See Note 4) There were no grants awarded for the 2017 grant year as of this report and could be available in the future if funds are available and the Board of Directors choose to.

FINANCIAL CONTACT

The District's financial statements are designed to present users (citizens, creditors, and regulatory agencies) with a general overview of the District's finances and to demonstrate the District's accountability. If you have questions about the report or need additional financial information, please contact the District's Management at 310 E. Avenue C., PO Box 92, Milano, TX 76556.

Note 1 - Reporting Entity

Post Oak Savannah Groundwater Conservation District (the District) was formed April 20, 2001 by the 77th Legislature of the State of Texas with House Bill 1784, Article 3 Section 3.01, under Section 59, Article XVI of the Texas Constitution. Upon recodification by the 84th Texas Legislature, while the former is still true, enabling legislations is now (Texas Codes, Special District local laws code, Title 6, Subtitle H, Chapter 8865). A ten member Board of Directors appointed by the Burleson and Milam County Commissioners governs the District. Each Commissioners Court appoints five directors and must represent various interests in the counties served by the District. Among its duties, the Board of Directors approves the District's budget, approves grant contracts, sets rates for permits and fees, approves or denies any permit, and has other duties as addressed during Board Meetings.

The District is empowered, among other things, to purchase, construct, operate and maintain all works, improvements, facilities and monitoring stations necessary for the purpose of groundwater conservation with respect to the aquifers within the district boundaries. The District provides financial assistance in the form of grants (if funds are available) and educational resources to public and private entities for the purpose of promoting, managing, and educating regarding groundwater resources of the central Carrizo-Wilcox Aquifer area.

In evaluating how to define the District for reporting purposes, The Board of Directors of the District has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic, but not the only, criterion for including a potential component unit within the reporting entity, is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of the governing authority, the designation of management, and the significant ability to influence operations of exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no other entities which were included as a component unit in the District's financial statements.

Note 2 - Summary of Significant Accounting Policies

The District's basic financial statements are prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing U.S. GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies, established by U.S. GAAP and used by the District, are discussed below.

In June 1999, the GASB unanimously approved Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* (the Statement). The District then implemented the Statement as applicable. Significant changes made by the Statement include:

A Management Discussion and Analysis (MD&A) section providing an analysis of the District's overall financial position and changes in net position.

Government-wide financial statements are prepared using full accrual accounting for all of the District's activities, including capital assets and long-term liabilities.

A. Basic Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for in a separate set of self-balancing accounts that comprises assets, liabilities, fund balances, revenues and expenditures and changes in fund balances. The District's fund balances are reported as restricted and unrestricted. Fund balances that are restricted indicate a portion of the fund balance which is not available for expenditure or is legally segregated for a specific future use. The transactions of the District are accounted for in the following funds:

Proprietary fund – To account for all revenues and expenditures not required to be accounted for in other funds.

Note 2 - Summary of Significant Accounting Policies (continued)

B. Basis of Accounting

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting which recognizes all long-term assets and receivables as well as long-term debt and obligations.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual. Accrual means that funds are both measurable and available to finance expenditures of the fiscal period. Available means collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized when the related fund liability incurred is measurable.

C. Accounts Receivable

Service accounts receivable as reported are considered collectable. The District uses the direct write off method for uncollectible accounts. Unbilled fee and permit revenues are not material and are not recorded at year end.

D. Capital Assets

Capital assets, which include property, equipment, and immovable public domain or "infrastructure" assets, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial cost of more than \$500 (including installation costs, if any, and associated professional fees) and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated cost if donated to or constructed by the District. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset, or increase the value of an asset, are capitalized. Costs for repairs and maintenance are expensed as incurred.

Depreciation, on capital assets, is computed using the straight-line method over the following estimated useful lives:

Vehicles	5 years
Office and field equipment	3-10 years
Buildings, improvements, and	0.5
monitoring equipment	5-40 years

E. Deferred Outflows/Inflows of Resources

The District implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities.* In addition to assets, the statement of net position will sometimes report a section for deferred outflow of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditures) until then. The District currently reports information pertaining to relevant disclosures of the defined benefit pension plan as required by the implementation of GASB 68 in this category and also certain prepaid expenses.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items that qualify for reporting in this category; transport fees and program fees. There was a material amount of these fees deferred and was recognized as deferred inflow of resources from the period the amount is collected and remitted to the District.

F. Equity Classifications

In the government-wide financial statements, equity is shown as net position and classified into three components; Net Investment in Capital Assets, Restricted, and Unrestricted. The District uses two of these classifications.

- 1. Net Investment in Capital Assets Capital Assets, net of accumulated depreciation and reduced by any outstanding debt that poses an encumbrance.
- 2. Unrestricted All other assets that do not meet the definition of net investment in capital assets.

Note 2 - Summary of Significant Accounting Policies (continued)

The District can also report portions of the proprietary fund balance as unassigned if not reported as:

- 1. Non-spendable Amounts that cannot be spent because they are either not in a spendable form or, legally or contractually required to be maintained intact.
- 2. *Restricted* Amounts with restrictions imposed externally by creditors, grantors, contributors, or laws or regulations of other governments, constitutional provisions or enabling legislation.
- 3. Committed Amounts that can only be used for specific purposes and imposed by formal action of the board of directors.
- Assigned Amounts informally constrained by District management but not formally reserved by the board of directors.

G. Risks, uncertainties, and use of estimates

The preparation of government-wide financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Note 3 - Capital Assets

Capital asset activity for the year ended December 31, 2016 was as follows:

Business-type activities Capital assets, not being depreciated	Balance January 1, <u>2016</u>	<u>Additions</u>	<u>Deletions</u>	Balance December 31, <u>2016</u>
Land Construction in progress Total not depreciated Capital assets, to be depreciated:	\$ 3,225 <u> 49,968</u> <u>\$ 53,193</u>	\$ - <u>243,534</u> <u>\$243,534</u>	\$ - 	\$ 3,225 <u>293,502</u> <u>\$ 296,727</u>

Total accumulated depreciation	(84,847)	(19,916)	25,485	(79,278)
Total capital assets depreciated, net of accumulated depreciation	254,047	6,691	(64,997)	195,741
Business-type activities Capital assets, net of accumulated depreciation	\$ 257,047	<u>\$ 59,541</u>	<u>\$ (67,654)</u>	<u>\$ 248,934</u>

Note 4 - Long-Term Liabilities and Contingent Liabilities

The District has no long-term debt for the fiscal year ended December 31, 2016.

Contingent Liabilities

The District is obligated to fund remaining water conservation grant distributions, net of forfeitures, as follows:

Water Conservation Grants	
2014 Grant Awards	\$ 190,268
2015 Grant Awards	91,312
2016 Grant Awards	926,905
Forfeitures	(10,418)
Remaining total balance to fund	\$ 1,198,067

This contingent liability is dependent on available funding and approval by the board of directors. The above table reflects committed funds awaiting distribution when appropriate documentation is submitted by the grantees. The prior year balance to fund was overstated by \$179,000 in 2014 grant forfeitures not disclosed.

Note 5 – Cash Deposits and Investments with Financial Institutions

The District's cash and cash equivalents at December 31, 2016 were fully covered by federal depository insurance or pledged securities. The Texas Treasury Safekeeping Trust Company (TexPool) investments were not covered by federal depository insurance or pledged securities. In accordance with GASB Statement No. 31, Accounting and Reporting for Certain Investments and External Investment Pools, the District reports all investments at fair value.

The District's cash, cash equivalents, and temporary investments at December 31, 2016 are shown below.

	Proprietary Fund	
Citizen's National Bank		
Operating account (Reported as a liability)	\$ (10,715)	
Petty Cash (on hand) Money market account Well account Investment in: TexPool	\$	
	\$ 2,707,662	

The market value for the above listed accounts is not materially different from the carrying value of the accounts.

A. Policies Governing Deposits and Investments

The District has implemented an investment policy and is authorized, according to the *Public Funds Investment Act* (PFIA) (Government Code Chapter 2256), to invest any and all of its funds in certificates of deposit, direct debt securities of the United States of America or the State of Texas, fully collateralized repurchase agreements, certain types of commercial paper, certain types of municipal bonds and local government investment pools created under the *Interlocal Cooperation Act*, wherein all funds were invested as listed above.

In compliance with the PFIA, the District has adopted a deposit and investment policy to address the following risks:

- Custodial Credit Risk Deposits: This is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District was not exposed to custodial credit risk, since its deposits at year-end and during the year ended December 31, 2016 were covered by depository insurance or by pledged collateral held by the District's agent bank in the District's name.
- 2. Custodial Credit Risk Investments: This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments are subject to custodial credit risk only if they are evidenced by securities that exist in physical or book entry form. Thus positions in external investment pools are not subject to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form.

Note 6 - Employee Benefits

A. Annual Leave

Annual leave (vacation) is a benefit provided to eligible, full-time, employees of the District. A full-time employee is one who is regularly scheduled to work forty hours per week. Annual leave is awarded at five business days (40 hours) after six months of employment and cannot be taken until the employee has reached the six month probationary period. An additional five business days (40 hours) is awarded after continuous employment of one year based on the hire date of the employee. The award maximum is fifteen business days (120 hours) for an employee after five years of continuous service. An employee may not carry-over annual leave to the next available period. Remaining leave is paid if unused before their anniversary date or upon termination. Compensated absences accrual at fiscal year-end was not material to these financial statements.

B. Sick Leave

A full-time employee, as previously defined, is entitled to six business days (48 hours) per calendar year. Accrual of sick leave is at one-half day (4 hours) per month and cannot be used until after six months of continuous employment. No sick leave may be accumulated beyond six days (48 hours) in a calendar year and upon separation from employment, no unused sick leave will be paid. Unused sick leave at fiscal year-end was not material to these financial statements.

C. <u>Retirement Plan</u>

Plan Description

The District provides pension benefits for all of its full-time employees through a cash balance-account type defined benefit pension plan (401(a)) in the statewide Texas County and District Retirement System (TCDRS). The TCDRS Board of Trustees is responsible for the administration of a statewide, agent multiple-employer, and public employee retirement system consisting of over 600 cash balance-like defined benefit pension plans. Each of the participating entities has an annual, individual actuarial valuation performed. All assumptions for the valuations are contained in the relevant TCDRS Comprehensive Annual Financial Report (CAFR), a current copy of which may be obtained by writing to TCDRS, PO Box 2034, Austin, TX 78768-2034 or by visiting their website www.tcdrs.org.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas State statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 10 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 80 or more. Members are vested after 5 years but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the employee's personal account balance and employer-financed monetary credits. The level of these monetary credits is within the actuarial constraints imposed by the TCDRS Act so that the expected benefits can be adequately financed by the District's commitment to contribute. At retirement, death or disability, the benefit is calculated by converting the sum of the employee's personal account balance, and the employer-financed monetary credits to a monthly annuity using the actuarial equivalent as prescribed by the TCDRS Act.

The District will match the employee contribution of 7% of their salaries up to 6.5%. As of the years ended December 31, 2016 and 2015, the District match was \$15,140 and \$15,086 respectively.

Funding Policy

The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer will be actuarially determined annually. It was 6.50% for the calendar year 2016. The contribution rate payable by the employee members is the rate of 7.00% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

Balances as of December 31, 2015	\$ 253,418	\$ 283,689	\$ (30,271)	

Changes in Net Pension Liability / (Asset)

(1) Reflects the change in the liability due to the time value of money. TCDRS does not charge fees or interest.

(2) Reflects new annuity purchase rates applicable to all TCDRS employers effective January 1, 2018.

(3) Relates to allocation of system-wide items.

Note 6 - Employee Benefits (continued)

C Retirement Plan (continued)

Discount Rate

Discount rate(2)	8.10%	8.10%
Long-term expected rate of return, net of	8.10%	8.10%
investment expense(2)		
Municipal bond rate(3)	Does not apply	Does not apply

2) This rate reflects the long-term rate of return funding valuation assumption of 8.00%, plus 0.10% adjustment to be gross of administrative expenses as required by GASB 68.

(3) The plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply. See page 6 of TCDRS report for further details.

Sensitivity of the Net Pension Liability/(Asset) to the Discount Rate

The following presents the net pension liability of the county/district, calculated using the discount rate of 8.10%, as well as what the Post Oak Savannah Groundwater Conservation District net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7.10%) or 1 percentage point higher (9.10%) than the current rate.

		1% crease	Current Discount Rate		1% Increase		
	7.10%		8.10%		9.10%

Note 6 - Employee Benefits (continued)

C Retirement Plan (continued)

Long Term Expected Rate of Return

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected longterm real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2016 information for a 7-10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2013. See Milliman's TCDRS Investigation of Experience report for the period January 1, 2009 – December 31, 2012 for more details.

		Target Allocation ⁽¹⁾	Geometric Real Rate of Return (Expected Minus Inflation) ⁽²⁾

Schedule of Deferred Inflows and Outflows of Resources

⁽¹⁾ Investment (gains)/losses are recognized in pension expense over a period of five years; economic/demographic

(gains)/losses and assumption changes or inputs are recognized over the average remaining service life for all active, inactive, and retired members.

Note 7 - Subsequent Events

Management has evaluated subsequent events through April 10, 2017; the date the financial statements were available to be issued. While there were no events that warrant a change to the financial statements for the fiscal year ending December 31, 2016, was deemed necessary to restate the Net Position of the fiscal year ended December 31, 2015, as a result of this evaluation.

Note 8 - Prior Period Adjustments and Restatement of Net Position

In order to ascertain reasonable assurance the District's beginning account balances in QuickBooks (books) at January 1, 2016 were in agreement with the results of the previous audit, adjustments to the prior period were needed. The net effect of these adjustments to the District's books resulted in an increase in net position of \$ 48,349. Detailed information on these adjustments is available from management on request.

Since the sale of the previous office building was not accounted for in the change to Capital Assets within the previous audit, a restatement of the Net Position presented by the audit of the fiscal year ended December 31, 2015 was needed in the amount of \$65,098. The changes were comprised of restatements of Capital Assets, Depreciation, both accumulated and expense, and acknowledging the net loss on the sale of the old building. Further details of the restatement are available upon request from management.

REQUIRED COMPLIANCE AND SUPPLEMENTARY INFORMATION

Γ

ALTON D. THIELE, P.C. CERTIFIED PUBLIC ACCOUNTANT 300 E. AVENUE C P.O. BOX 808 BELTON, TX 76513-0808

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors

Post Oak Savannah Groundwater Conservation District

Milano, TX

We have audited in accordance with, auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate remaining fund information of Post Oak Savannah Groundwater Conservation District as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated April 10, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine audit procedures that are appropriate in circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We have not identified any deficiencies in internal control over financial reporting that we believe to be both significant deficiencies and/or material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

⁽¹⁾ TCDRS calculates actuarially determined contributions on a calendar year basis. GASB Statement No. 68 indicates the employer should report employer contribution amounts on a fiscal year basis.

⁽²⁾ Payroll is calculated based on contributions as reported to TCDRS.

NOTES TO SCHEDULE OF CONTRIBUTIONS

Valuation Date:	Actuarially determined contribution rates are calculated as of
	December 31, two years prior to the end of the fiscal in which
	contributions are reported.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, Closed
Remaining amortization period	0.0 years (based on contribution rate calculated in 12/31/2015 valuation)
Asset valuation method	5 year smoothed market
Inflation	3.0%
Salary increases	Varies by age and service. 4.9% average over career (including inflation)
Investment rate of return	8.00%, net of investment expenses (including inflation)
Retirement age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Mortality	In the 2015 actuarial valuation, assumed life expectancies were adjusted as a result of adopting a new projection scale (110% of the MP-2014 Ultimate Scale) for 2014 and later. Previously Scale AA had been used. The base table is the RP-2000 table projected with Scale AA to 2014.
Changes in Plan Provisions Reflected in the Schedule*	No changes in plan provisions are reflected in the Schedule of Employer Contributions.

*Only changes effective 2015 and later are shown in the Notes to Schedule.

The accompanying notes are an integral part of the financial statements. See accompanying Independent Auditors' Report.
