Board Meeting

August 1, 2017

5:30 p.m. at the POSGCD Office

Post Oak Savannah Groundwater Conservation District

Published by Megan Homeyer [?] · July 19 at 2:27pm ·

Regularly checking your toilet for leaks is important. An easy way to check if you have a leak is to add a few drops of food coloring to the water tank and wait 10-15 minutes before checking the bowl.

#WaterTipWednesday

Check for toilet leaks by adding food coloring to the toilet tank and see if the bowl-water changes color.

Board Dash

POSGCD Dashboard

Committee	Responsibilities
Advisory	<p>A. Budget - construction of annual budget, considerations of budget amendments, and recommendations of budget amendments to Board</p> <p>B. General oversight and Advising the General Manager (GM) on issues from time to time as necessary when previously adopted policies and rules do not cover an issue and an item needs to be addressed prior to a Board meeting. This could also include discussions with permit holders, legislators, their staff, other GCDs, etc.</p> <p>C. Meetings with individuals and/or groups to hear from them on certain items or issues</p>
Rules	<p>Oversight of the Rules of the District, including considerations of possible amendments as needed, and discussion from time to time of the need to update certain of the Rules. As necessary, the Rules Committee meets with District staff and consultants to discuss certain of the Rules and different versions of possible amendments to achieve the intention of the District's management. As a general rule, the GM, and other staff as deemed appropriate, as well as the District's general counsel, and when necessary, the district's Hydologist, attend and participate in these meetings. The committee is responsible for recommendations to the Board for amendments to the rules.</p>
DFC	<p>Meet regularly to consider both DFCs within the two GMAs (GMA 8 and GMA 12) which include the District, as well as DFCs of the shallow management zones of the District. This committee also considers our well monitoring programs, and changes to DFCs as well making recommendations to the Board concerning those DFCs or possible changes to management strategies within the District. Recently, additional responsibilities include oversight of development of the Groundwater Well Assistance Program (GWAP), since this program will consider possible future impacts to wells in the District, and this committee is already engaged in those evaluations.</p>
Grant	<p>Meet annually to consider applications from local water utilities in the District for the District's Groundwater Conservation Grant Program, as well as meeting as needed to advise the Board on requested amendments to these awarded grants. Also responsible for</p>

Committee	Responsibilities
Advisory	A. Budget - construction of annual budget, considerations of budget amendments, and recommendations of budget amendments to Board
	B. General oversight and Advising the General Manager (GM) on issues from time to time as necessary when previously adopted policies and rules do not cover an issue and an item needs to be addressed prior to a Board meeting. This could also include discussions with permit holders, legislators, their staff, other GCDs, etc.
	C. Meetings with individuals and/or groups to hear from them on certain items or issues
Rules	Oversight of the Rules of the District, including considerations of possible amendments as needed, and discussion from time to time of the need to update certain of the Rules. As necessary, the Rules Committee meets with District staff and consultants to discuss certain of the Rules and different versions of possible amendments to achieve the intention of the District's management. As a general rule, the GM, and other staff as deemed appropriate, as well as the District's general counsel, and when necessary, the district's Hydologist, attend and participate in these meetings. The committee is responsible for recommendations to the Board for amendments to the rules.
DFC	Meet regularly to consider both DFCs within the two GMAs (GMA 8 and GMA 12) which include the District, as well as DFCs of the shallow management zones of the District. This committee also considers our well monitoring programs, and changes to DFCs as well making recommendations to the Board concerning those DFCs or possible changes to management strategies within the District. Recently, additional responsibilities include oversight of development of the Groundwater Well Assistance Program (GWAP), since this program will consider possible future impacts to wells in the District, and this committee is already engaged in those evaluations.
Grant	Meet annually to consider applications from local water utilities in the District for the District's Groundwater Conservation Grant Program, as well as meeting as needed to advise the Board on requested amendments to these awarded grants. Also responsible for evaluation of process and procedures for the grant program and recommending changes to the Board. Develop and implement Rainwater Harvesting Grant Program.
Education	Oversight of District's efforts for education and outreach, including any needed budget and staff. This includes all efforts including the District's annual Milam and Burleson Counties Groundwater Summit, as well as any other organized efforts of outreach in the District.
Public Liaison	Meet from time to time as needed for discussion with groups of members of the public concerning issues in the District, and direct those issues to appropriate committees for review, consideration, and disposal.
Legislation	Advise and provide oversight to the General Manager on issues of legislation affecting the District, including statements of standing on legislation.
Building	Oversight of the building and property of the District.
